REPLY COMMENTS OF CHARLES CRAWFORD

I, Charles Crawford, ("Petitioner") hereby respectfully submits this reply to the Counterproposal filed by Mullin Broadcasters in the above captioned proceeding.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 224A to Comanche, Texas, as that community's first competing FM service. Comanche is an incorporated city with a population in excess of 4,675 people according to the January 1, 1998 Texas State Data Center. Comanche is the county seat of Comanche County which has a population exceeding 14,670 people. Comanche has its own mayor, Bill Flannery, its own school system, the Comanche Independent School District, its own post office, hospital, volunteer fire department and a number of churches. It is my continued intention to apply for Channel 224A at Comanche, Texas, and after it is authorized, will promptly construct the new facility.

Mullin Broadcasters proposes to allot Channel 224C3 to Mullin, Texas, as that community's first local service in place of Channel 224A at Comanche. In order to accommodate that allotment, Mullin Broadcasters request the substitution of Channel 259A for vacant Channel 224A at Mason, Texas.

However, Channel 259A is not available in Mason, Texas because of a pending application for 258C1 at Eldorado, Texas filed with the FCC on September 5, 2001, 5 days prior to Mullin Broadcasters Counterproposal which was filed on September 10, 2001. (Attachment A, FCC filed marked copy of Eldorado, Texas application)

However, it does appear that Mullin, Texas can be provided with a first service on Channel 263A. Attached hereto is a channel study confirming that Channel 263A can be allocated to Mullin, Texas, consistent with the FCC's FM separation rules. (Attachment B) See revision of FM Assignment policies and procedures, 90 FCC 2d 88 (1992). Note: Station KHYS Abilene is operating on Channel 264C (100.7) and not Channel 263C (100.5) per the current FCC Date Base. (Attachment C, KHYS (KISS 100.7) web site and Radio-Locator).

Reference coordinates are:

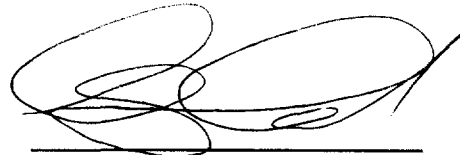

31 38 36

98 35 44

Should the FCC allocate Channel 263A to Mullin, Texas, I will also apply for Channel 263A, and after it is authorized, will promptly construct the new facility.

The information provided in these Reply Comments are correct and true to the best of my knowledge.

Respectfully submitted,

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke at the end, positioned above a horizontal line.

To: John Karousos, Chief
Allocations Branch
Mass Media Bureau

PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Linda Crawford respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 258C1 at Eldorado, Texas.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 258C1 to Eldorado, Texas, as that community's first commercial FM service. Eldorado is an incorporated city with a population in excess of 1,950 people. Eldorado has its own mayor, John Nikolauk, its own school system, its own post office, its own fire department, its own city hall and a number of local churches.

Petition for Rule Making
Eldorado, Texas
Page 2

Attached hereto is a channel study confirming that Channel 258C1 can be allocated to Eldorado, Texas consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992).

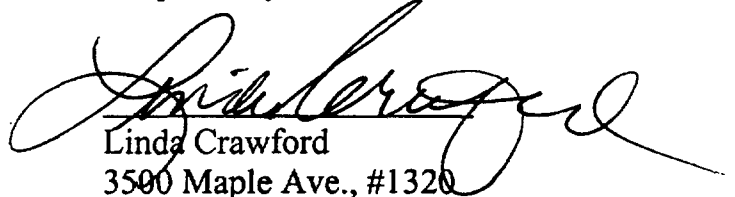

Reference coordinates are:

30 46 00 N
100 41 00 W

Should this petition be granted, and Channel 258C1 be allotted to Eldorado, Texas Petitioner will apply for Channel 258C1, and after it is authorized, will promptly construct the new facility.

The information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Linda Crawford', is written over a horizontal line.
